

Working In and Around Waterways Do I need a permit?

November 8, 2012

From 8:00 am- 10:00am
Clark County 4H Fairgrounds

This is a workshop for municipal employees and local officials. It will cover guidelines for working in and around waterways. Many departments within a municipality end up working around waterways and wetlands from time to time. When this happens there are always questions concerning if the work that will be done needs a permit. This workshop will help give an understanding as to when and how to obtain the proper permitting needed to work with in a waterway or wetland.

Speakers:

8:00am

Army Corps Waterways Regulation:

Greg McKay

United States Army Corps of Engineers
Chief, North Section Regulatory

9:00 am
